

NOTICE

CONSTRUCTION OF KIPEVU ROAD FROM GATE 18 TO CHANGAMWE ROUND ABOUT

KPA has almost finalized the land acquisition paving the way for the full implementation plan of the project.

The contractor intends to fully mobilize the construction equipment leading to massive earth works within the project section starting 9th April, 2018.

As part of the traffic management, it is intended that the existing Port bound traffic be re-routed to use the Port Reitz Road and entering the Port through Gate 24 while exiting the Port through the gate 18 exit lane.

The scope involves expanding the road to 3 lanes either side, with additional pedestrian lanes, cycle track and services lane on either sides of the dual carriage.
