**KENYA REVENUE
AUTHORITY**

Notice to Shipping Lines/Agents/Importers

This is to notify you that containers destined to Kenya through the Port of Mombasa and liable to local clearance shall from 30th November 2018 be required to have the full details of the consignees in each Bill of Lading and the Manifest that is submitted to Kenya Revenue Authority as a prerequisite for approval.

The details required shall be the Consignee's Name, Mailing Address as per his/her Tax Personal Identification Number (PIN), E-mail and mobile number. In cases where the consignee is "to the order", the notifying party or a bank is the contact entity, the same contact details should be included.

Shipping lines through their Ships Agent Association are required to advise all their customers of this requirement. It is important that there is a full declaration of cargo owners in the exchange of manifest data information. This is critical and beneficial to importers especially as pertains the status of cargo from discharge to gate exit.
